| Course | College/University | Year | Year |
|---|---|---|---|
| B.E. (AIML) | Srinivas Institute of Technology | 2020-Current | 2020-Current |
| PUC/+2 | B.A PU College, Thumbay | 2018-2020 | 2018-2020 |
| SSLC | B.A High School, Thumbay | 2018 | 2018 |

## OBJECTIVE

A highly motivated and results-oriented AIML student with a strong foundation in technologies, communication systems, and programming. Eager to leverage academic knowledge and hands-on experience to contribute to innovative projects and gain valuable industry exposure. Skilled in problem-solving, teamwork, and adapting to new technologies.

## EXPERIENCE/INTERNSHIPS

**SAMAGRA TECHNOLOGIES** [Sep 2023 - Oct 2023]**:** Gained valuable hands-on experience in the field of web development using the MERN stack and was responsible for designing and developing front-end components with React, building and maintaining server-side applications with Node.js and Express, and managing databases using MongoDB. Successfully implemented user authentication and authorization modules. This experience helped to develop strong skills in JavaScript, RESTful APIs, and full-stack development.

## PROJECTS

- **Train Management System -**
  - Designed a user-friendly interface using HTML, PHP, and CSS.
  - Integrated backend functionality to manage train schedules, ticket bookings, and user data.
  - Implemented database interactions using MySQL for efficient data storage and retrieval.
- **Nephropathy Prediction Using Deep Learning Models (**Got first place in project exhibition for this project)**-**
  - Developed a nephropathy prediction system using ANN and CNN models.
  - Utilized the MobileNet architecture to handle both structured and unstructured data.
  - Trained and validated models to predict nephropathy with high precision.
- **Employee Management System -**
  - Developed an Employee Management System using the MERN stack.
  - Designed a React front-end to provide a responsive and user-friendly interface.
  - Utilized MongoDB Atlas for cloud database management, ensuring secure and scalable data storage.
- **Other Projects**
  - Created my own portfolio website.
  - Created image scrolling animation using MERN Stack.
  - Created a website for a clinic to allow patients to book consultation appointments.

## SKILLS/INTERESTS

- **Programming Languages:** Python, C++, HTML and SQL.
- **Soft Skills:** Communication, Leadership, Creativity, Teamwork, Problem Solving, Critical Thinking and Quick learner.
- **Languages :** English, Kannada, Hindi, Malayalam, Tamil, Tulu and Beary.

## CERTIFICATES

- **Cloud Computing** by Pearson issued by Certiport.
- **Cybersecurity Essentials** by CISCO issued by Certiport.
- **UIpath** by Pearson issued by Certiport
